

Material Safety Datasheet

Product name: **Suave White Base**

01 Identification of the Substance/Preparation

Trade name: Suave White Base

Intended use: Decorative Coating – Preparation Coat

Supplier: Ambitec (NZ) Ltd.

Emergency phone no.: + 64 (0)9 415 5533

Email: info@ambitec.co.nz

02 Hazards Identification

The Product is not classified as dangerous to the latest regulations

03 Composition/Information on Ingredients

CAS no. EC no. % (weight) Symbol R phrases

pyrithion-zinc-salt

13463-41-7 236-671-3 > 0,1 -1,0 N,T 22-23-38-41-50

Naphtha (petroleum), hydrodesulfurized heavy, Flpoint > 55 C

64742-82-1 265-185-4 > 0,1 -1,0 N,Xn 51/53-65

04 First Aid Measures

General:

In all cases of doubt, or when symptoms persist, seek immediate medical attention. Never give anything by mouth to an unconscious person.

Inhalation:

Remove patient to fresh air and seek immediate medical assistance. Keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position.

Skin Contact:

Remove contaminated clothing. Wash skin with soap and water, rinse abundantly. Do NOT use solvents or thinners.

Eye Contact:

Contact lenses should be removed. Hold eyelids open and flush with copious amounts of clean, fresh water or a special eyewash solution and seek immediate medical advice.

Material Safety Datasheet

Ingestion:

If swallowed, rinse mouth with plenty of water (only if the person is conscious) and seek medical advice immediately. Keep the injured person at rest. Do not induce vomiting.

05 Fire-Fighting Measures

Suitable Extinguishing Media:

Foam (alcohol resistant), carbon dioxide, powders, water spray. Do not allow runoff from fire fighting to enter drains or water courses.

Unsuitable Extinguishing Method:

Water jet

Special Hazards due to the Substance, its Decomposition Products or Gases produced by Fire:

Fire will produce dense black smoke. Inhalation of dangerous decomposition products may cause serious damage to health.

Special Protective Equipment:

Appropriate breathing apparatus may be required.

Additional information:

Cool closed containers in the vicinity of the source of fire.

06 Accidental Release Measures

Measures to Protect the Environment:

Do not allow to enter drains or watercourses. If the product enters drains or sewers, the local water company should be contacted immediately; in the case of contamination of streams, rivers or lakes, the appropriate Environment Agency.

Cleaning Measures:

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in a suitable container for disposal according with the waste regulations. Clean preferably with a detergent; avoid the use of solvents.

Avoid inhalation of dust from sanding

Smoking, eating and drinking are forbidden in application area.

Storage:

Keep container tightly closed. Never use pressure to empty; container is not a pressure vessel. Close containers carefully once opened and store upright in order to prevent any leakage.

Information on Combined Storage:

Keep away from oxidising agents, from strongly alkaline and strongly acid materials.

Material Safety Datasheet

07 Physical and Chemical Properties

Physical state:

Pasty substance
Boiling temperature/range : n.d.a.
Melting point/range : n.d.a.
Flash point : n.a.
Ignition temperature : > 200 °C
Solvents Explosion limits, lower : > 35 g/m3 upper : n.d.a.
Vapour pressure : n.d.a.
Density : 1,650 g/cm³ at 20°C
Solubility in water : immiscible
Viscosity : n.a.

08 Stability and Reactivity

Stable under recommended storage and handling conditions

Hazardous Decomposition Products:

When exposed to high temperatures hazardous decomposition products such as carbon monoxide, carbon dioxide, smoke, oxides of nitrogen may be produced.

09 Ecological Information

General:

The product should not be allowed to enter drains or water courses.
Wastes, including emptied containers, are controlled wastes and should be disposed of in accordance with regulations made under the Control of Pollution Act and the Environmental Protection Act. Using information provided in this data sheet, advice should be obtained from the Environment Agency whether the special waste regulations apply.

10 Transport Information

Transport by Road or Rail:

The preparation is not classified as hazardous for transport

Sea Transport:

The preparation is not classified as hazardous for transport

Air Transport:

The preparation is not classified as hazardous for transport (ICAO-TI / IATA-DGR)
