**Suave Polished Plaster** : Robust and hard-wearing with easy maintenance and remedial repair. Suitable for residential, commercial and retail interiors, including cabinetry & furniture. Can be used in bathrooms, powder rooms and kitchens but avoid surfaces directly exposed to water such as shower cubicles/wet areas. A surface sealer is recommended for applications in moisture prone and high traffic areas. Able to be tinted to a range of natural to bright and dark colours within and beyond the Suave colour library.
